▷ **TRUSPEED®** SXB

Capture and Store Traffic Violations With Photos

The SpeedCapture app is a free solution that combines precision speed and range data from the TruSpeed® Sxb laser with an embedded image to create an enforcement record that can be saved and shared. Use the 7-power magnification and the zero speed feature to enforce parking and distracted driving violations with photos. This solution is currently being used by law enforcement agencies and private speed management companies around the world.
Enforce More Than Just Speed

» Distracted Driving
» Seat Belt Use
» HOV Lane
» Stop Sign/Light
» Parking

Save Time in the Field and Office

» Auto-accepts speed/range data and embeds it into an image in one shot
» Includes location information and laser serial numbers without the need for manual data entry
» Uses instant group-texting feature to share violation images with your traffic team
» Files enforcement records that are easily retrievable for court purposes
» Uploads enforcement records to department server location

**Newer Android systems will use the SpeedCapture2 app*
